18 Jan ♃ ♌ ♀ 07:25 am EST **Tran-Nat** 06° ♁59'

A leap of faith will cross many a boundary and unite former foes -- and this is the time to do it, fueled by a special inner confidence that is now available. A strong word of support, based on your own willingness to stand behind your commitments, will change uncertain ties to lasting friendships.

21 Jan ♃ ♌ ♁ 04:14 am EST **Tran-Tran** 07° ♁37'

You are in a roughly yearlong period in which the world at large is, in the deepest sense of the word, coasting. There is a great faith that God is in his Heaven and all is right with the world, which is, as often as not, totally unfounded, a disillusionment often met the following year. But, for the moment, in the background all appears to be working smoothly, both economically and morally. This makes for profitable enough short-term actions, as long as you can pull out quickly. The real personal bonanza may be had by searching out the coming shift that changes everything and putting all your financial and moral assets on it.

25 Jan ♃ ♁ ♀ 05:02 pm EST **Tran-Nat** 08° ♁36'

This is a good time to find ways to implement your personal beliefs in a way that is practical, satisfying, and unobtrusive to others. No need to soapbox, just a quiet word or two will be enough to get the ball rolling. After an initial thrust, truth and conviction will carry the ball.

25 Jan ♀ ♄ ♁ 11:25 pm EST **Tran-Tran** 00° ♁00'

As this new phase dawns for you, the pursuit of social/political power and status has a way of seeming necessary and inevitable - and let nothing stand in its way. It starts out small, but has bigger consequences than you'd think. Ambition, responsibility, a place for everyone and everyone in their place ...

31 Jan ♁ ♄ ♀ 09:46 am EST **Tran-Nat** 06° ♁59' R_x

This is likely to be a time of considerable deep introspection and even depression, during which you meditate upon the meanings of death and the limitations put upon us by worldly existence. Rather than bemoaning your hard case, take it as a time to confront and better understand these total issues.

It's easy to get upset right now because you think that you haven't performed up to snuff or have been failed or disappointed by another. Reserve judgment for the moment, as circumstances more than people are likely to blame -- if there is blame at all. Chalk it off to experience and cheer up.

--------	-------	--------------	-----------	--	---------

It's a good time to invest in mutual discovery, where what you stumble on somehow perfectly dovetails with what just fell into your partner's lap. You don't need to push or pursue the far-out to go really way into yourselves, and you'll probably even have a little help from your friends, because right about now they're probably doing it, too. This can apply to the boardroom or the bedroom equally, as subtle inspiration and small "aha!" revelations snowball to give everyone a totally new view on an old subject and reinvigorate flagging energies and interests. The key to success: Be aboveboard, don't go overboard. Share what's given, expect the same.

			It's relatively easy to get what you want for a while, as long as you're not over demanding (which you're not likely to be). What you need tends to come, and what doesn't probably can be done without anyway. In any case, patience and perseverance are the solution and, for once, they are not too hard to get.

			Emotional confusion can be the result of feelings that fall in and out of focus, situations arise where it's hard to put your finger on just how you want to respond. If you're not sure where you stand, let things go until you are on firmer ground and have tested the changing waters. When tides are changing, wait for them.

An extreme on-again off-again energy flow will make it hard to balance your hand and keep things steady in both the inner and the outer fronts. Extreme physical/emotional intensity alternates with a lack of same and can push you to extremes you cannot follow up on. Bank the hot fires so they will last.

Your feelings may be somewhat at odds with the path you are used to taking, so second-guessing yourself before you step ahead too irretrievably may be a good idea. If you don't feel comfortable with what you're being asked to do, that may be simply an indicator that you are on new ground and are mastering the learning curve.

You may find that your fantasy life is seeing some external support, making this a good time to go gently out and try to make some dreams come true. Just sort of slip them into reality, don't push, and you may find they grow with a life of their own. Be willing to trim them to fit reality a bit and they'll blossom.

This rare (once in 45 years) aspect provides a background of a year or so when new advances in theoretical science occur which take a longtime proving, thanks to an often-intransigent scientific establishment. Relativity theory and chaos theory are two good examples; both took years to become thoroughly accepted and a part of the general consciousness. If you happen to know what they are, it probably profits you little, except you can tell your children you were there first, when they finally get hip to it. Nevertheless, it's worth looking around for, as the foundations for another wave of the future are being laid at this very time, no small thing.

This is an important breaking point in your life, one which may bring you real tangible gain and open new doors which had been shut to you for lack of resources. It means a break from the past and those things that have tied you down, but will only benefit if you have the courage to take the ball and run.

the time to be self-conscious.
